Good Morning Tocky-

At last week's Selectmen's meeting the Board voted to have you go ahead with the research on the island. In listening to the minutes this a.m. it is unclear to me whether or not they want you to prepare the plan at this point or not. I will double check with them this evening and get back to you tomorrow.

If you have any questions, feel free to call or email.

Thank you,
Julie

Julie,
You are right...your message is a bit confusing. I need to refresh my memory and we should talk on the phone, I think. Hopefully tomorrow (Wednesday) and better before you talk to the Town attorney, as I'm not sure that we are completely on the same page....
Thanks,
Tocky

Hi Tocky-

I ran your info by the Selectmen a couple weeks ago. They agree that the deed does not indicate that the island is owned by the abutter. If they decide to just go ahead and put the road through the center of the island, they are wondering what you would charge to draw up a plan showing that change. In addition, they are debating whether to do a lot line adjustment giving the abutters each of the current roadways (I need to check w/legal counsel about whether or not it would need to be voted on at town meeting) or just make the change in roadway and do nothing and let the abutters just assume responsibility of maintaining those areas. One of the abutter's driveways which is off of Crawley Falls Road would have to be extended to meet the new location of the road. Is that something we could give them an easement for? I hope this all makes sense. If it's easier to discuss it over the phone, feel free to give me a call 642-6400 x10.

Thanks Tocky!

Julie
